

Number of U.S. Species Listings Per Calendar Year (as of December 31, 2002)

| <u>Year</u> | <u># Listed</u> |
|---|--------------------|
| Pre-1973 | 119 |
| 1973 | 7 |
| 1974 | 0 |
| 1975 | 8 |
| 1976 | 40 |
| 1977 | 20 |
| 1978 | 37 |
| 1979 | 37 |
| 1980 | 16 |
| 1981 | 4 |
| 1982 | 11 |
| 1983 | 7 |
| 1984 | 31 |
| 1985 | 60 |
| 1986 | 36 |
| 1987 | 62 |
| 1988 | 47 |
| 1989 | 32 |
| 1990 | 39 |
| 1991 | 77 |
| 1992 | 80 |
| 1993 | 69 |
| 1994 | 126 |
| 1995 | 18 |
| 1996 | 92 |
| 1997 | 79 |
| 1998 | 64 |
| 1999 | 38 |
| 2000 | 41 |
| 2001 | 11 |
| <u>2002</u> | <u>10</u> |
| <i>Subtotal</i> | <i>1318</i> |
| - delisted species | -30 |
| Total U.S. Listing actions* | 1288 |
| - 9 dual status listings & 16 DPS/ESU listings | -25 |
| <i>Total number of listed U.S. species</i> | <i>1263</i> |

****Explanation:***

Includes species listings by U.S. Fish and Wildlife Service and National Marine Fisheries Service, excludes listings of experimental populations or similarity of appearance.

There have been 1,318 U.S. species listing actions since 1967, but 30 species of these have subsequently been removed from the list due to recovery, extinction, or other factors. In addition, nine species (gray wolf, piping plover, roseate tern, green sea turtle, olive ridley turtle, Stellar sea lion, chinook salmon, sockeye salmon, and steelhead) have dual status, which means that they are listed as Endangered in one part of their range and Threatened in another. Sixteen Distinct Population Segments now tallied as one include coho salmon, chinook salmon, sockeye salmon, and steelhead. Therefore, the number of U.S. listed species, as of December 31, 2002, is 1,288.
